

SPLASH LUBRICATED AIR COMPRESSORS

2212 Camplain Road Hillsborough, NJ 08844 1-888-8FC-LIFT

AMERICAN MADE QUALITY

WHAT MAKES A SAYLOR-BEALL?

Saylor-Beall uses piston rings specifically designed for two-stage air compressors. They have a special taper and an overlapping joint to eliminate ring gap. This ensures less compressed air blow-by and reduces oil carry-over.

HORIZONTAL TANK MOUNTED AIR COMPRESSORS

SAYLOR-BEALL Manufacturing Company warrants its compressors and parts when properly installed, lubricated and maintained as recommended and in accordance with good industry practice to be free from defects in material and workmanship under normal use and service. The responsibility of the Company under this warranty is limited to repair or replacement at the Company's factory, any compressor or part thereof, which shall, within one year after date of shipment to the original purchaser, be returned to the Company and which, upon examination, shall be found defective to the satisfaction of the Company. This warranty shall not apply to compressors or parts which have been subjected to misapplication, misuse, negligence or accident, to compressors or parts which have been repaired or tampered with outside the Company's factory when in the judgement of the Company, it appears that the reliability or stability of the compressor or part has been effected. Ordinary maintenance, such as adjustment and cleaning of equipment or components is the responsibility of the owner. All transportation and shipping charges shall be paid by purchaser. This warranty does not apply to electric motors or gasoline engines. These are covered by the Original Manufacturer's Warranty and should be returned by the purchaser to their authorized station for service. This warranty s expressly in lieu of all other warranties (except of title) expressed or implied and of any other obligations or liability on the part of the Company. There are no warranties of merchantability or of fitness for a particular purpose
